Summary — Dynamic Frontend Developer with hands-on experience in building responsive and interactive web applications using HTML, CSS, JavaScript, and React. Skilled in optimizing web performance, ensuring cross-browser compatibility, and creating user-centric designs. Proficient in integrating APIs and currently expanding skills in backend development using the MERN stack .

Training

Kodu - Powered By Dhurina   **August 2024 – Present**

Training — Fullstack Developer—Rohtak

- Collaborated on designing and developing responsive user interfaces with HTML, CSS, JavaScript, and React.
- Gained hands-on experience with backend development using Node.js and Express, integrating APIs and building dynamic web applications.
- Optimized website performance and ensured cross-browser compatibility to enhance user experience.
- Gained expertise in version control systems like Git to streamline development workflows and collaborate effectively.

Education

Guru Jambeshwar University, Hisar

B.Sc. in Computer Science — 2021 - 2024

Certifications

- **React Hooks Crash Course** - GreatStack (Dec 2024)
- **JavaScript Fundamentals** - GreatStack (Dec 2024)
- **Full Stack Development Certification** - Kodu Powered By Dhruina (2025)
- **JavaScript Fundamentals** - GreatStack (Dec 2024)
- **Developer and Technology Job Simulation** - Forage (Dec 2024)

Skills

Programming Languages
JavaScript, HTML, CSS , C
Libraries/Frameworks
React , Bootstrap , Tailwind
Tools/Platforms
Git, GitHub, VS Code, Postman
Expanding Skills
MongoDB ,Node.js (Learning) , Express.js (Learning)

Projects

GitHub Users Data   **Demo Link**

- Developed a fully responsive web application to showcase Github Users Data and github Repositories and also search data of individual users.
- Leveraged modern UI principles using React for an engaging user interface.
- Deployed the application on Netlify for live access, integrating design consistency and optimized loading speeds.

Tasty Burger Restaurant App   **Demo Link**

- Developed a dynamic restaurant application showcasing menus and contact information using React.
- Ensured responsive design principles for a seamless user experience across devices.

Fullstack To-Do Application (MERN Stack)   **Demo Link**

- Built a fullstack to-do application using the MERN stack (MongoDB, Express.js, React, Node.js)
- Designed a responsive user interface with React, incorporating modern styling techniques for an intuitive experience.
- Integrated JWT-based user authentication for secure access to personalized to-do lists.
- Implemented backend API endpoints with Node.js and Express.js to handle CRUD operations.
